READY, SET, STYLE.

Selecting a drawer and door style is a great place to get started. From a straight-forward Shaker to an intricately detailed design style, Diamond® has what you need.

THINGS TO CONSIDER WHEN SHOPPING STYLES:

Select the one that aligns with your vision.

Clean, smooth slab drawer fronts.

Detailed, five-piece drawer fronts.

Full overlay drawer and door fronts will deliver seamless coverage of cabinet fronts.

Partial overlay allows each drawer and door to stand out on its own.

Cherry, maple, oak and more. The wood species you choose will effect the way your chosen wood stain or paint reads on the wood color and grain. With so many combinations to choose from, your designer can help further guide.

DESIGNER TIP:

Does your design call for modern and minimal? Specialty laminate may be for you. See these sleek styles on page 22.

FINISHES

JUST THE RIGHT FINISH.

Year after year, white wins the popular vote in kitchen cabinet paint finish choice, and it may be the winning choice for you.

If that's the case, the real question is which white. After all, white isn't white. There are many shades and tints of white to choose from with Diamond. Work with your designer to find your right white.

Shown: Caldera Maple Icy Avalanche Paint, Distinction™ Series

DESIGNER TIP:

Prior to making a final decision, be sure to view the finish you select in your home in the lighting that your cabinets will experience and at different times of day. This will ensure you make a confident choice.

Paint daubs shown above: Brightest White, White, Icy Avalanche and Coconut

CUE THE COLOR.

What if white isn't right for your design? You can go bold and choose a color for your full design or go with a dynamic two-tone design to create dimension. The two-tone concept can be done with two paint finishes or a paint and a stain.

These are some of our favorite finish combinations to inspire you!

TOP IT OFF WITH GLAZE.

Glazes are just one more way to make your design uniquely yours and add character and depth to your cabinet design. Choose Penned Glaze for a concentrated glaze detail in the crevices of the cabinet drawer and door fronts, and Flooded Glaze for a softer, all-over patina.

* The door and/or drawer front center panel on Maple painted doors may be constructed of Medium Density Fiberboard (MDF), except on the Liberty door style, or when Distressing or Heirlooming is specified.

A room with a single wood tone can read flat and uninteresting. Don't be afraid to choose a cabinet finish that is a bit different than your wood floor finish or your furniture. The variation can add richness and depth.

STAIN SHEENS

MATTE SHEEN

(Top portion of door)

Our low sheen top coat is less reflective and absorbs more light, resulting in a softer, more muted look. Available on all stains and glazed stains. Not available on paints or glazed paints.

SATIN SHEEN

(Lower portion of door)

Our timeless original top coat features a moderate sheen which is reflective without being too glossy. Available on all stains, glazed stains, paints and glazed paints.

FINISHING TECHNIQUES

Finishing techniques are a great way to give your cabinets a unique look. Heirlooming and distressing add dimension to your cabinets. Talk with your designer about which might enhance your kitchen design.

HEIRLOOMING

Over-sanded edges and profiles expose the underlying wood to create a naturally aged appearance, lending depth and character.

DISTRESSING

Unique imperfections like wormholes, chisel marks and tiny dents and dings replicate the wear found on a well-loved piece of furniture.

PURESTYLE™

Diamond® Vibe™ Series offers PureStyle for those looking for the beauty of a paint finish with added durability.

The PureStyle wrapped door and drawer front design solution delivers crisp, clean details and a durable, paint-like finish. The added benefits of color consistency paired with the resistance to scratching, fading and surface water mean PureStyle delivers fashion without the fuss.

Vibe™ Series

CLEANS BEAUTIFULLY.

A clean cloth dampened with a solution of 5% dish soap and 95% water is all it takes to clean PureStyle cabinetry. Dry with a clean, soft cloth.
